

Plasma Clean Ambion

The Ambion utilises plasma ionisation technology to create high levels of charged ions. These ions destroy odours and airborne microbes. The Ambion is suitable for a range of environments such as refuse storage and public waiting areas.

Simple to install, with low maintenance and running costs, this versatile modular solution provides affordable and reliable odour control and is an effective element in the infection control process.

The Ambion is suitable for:

- Restaurants & Takeaways
- Refuse Storage Areas
- Washrooms
- Hotel Rooms
- Care Homes
- Public Waiting Areas

Unit Specification

Ambion 50- Up to 50m²

Ambion 75- Up to 75m²

Ambion 100- Up to 100m²

The Ambion disinfects the air by neutralising odours and removing pathogenic germs, bacteria and viruses to create fresher, cleaner air.

Features and Benefits

- Low capital and running costs
- Simple installation and maintenance
- Aesthetic design
- Compact, lightweight and robust
- Quiet operation
- Environmentally friendly

Product Specification | Ambion

Room Area	Treats up to 100m ²
Operation	Adjustable timer
Power Consumption	Up to 45 W
Power Supply	230V/ 1 ph / 50Hz
Size HxDxL	300x100x302 mm
Weight	4kg
Construction	Grade 304 stainless steel
Mounting	Wall mounted

Plasma Clean is continuously improving its products and services and reserves the right to alter designs without prior notice
