

## Plasma Clean Ambion 1100

The Ambion 1100 utilises plasma ionisation technology to create high levels of charged ions. These ions destroy odours and airborne infection present in ambient air. The Ambion 1100 is suitable for a range of environments such as refuse storage and public waiting areas.

Simple to install, with low maintenance and running costs, this versatile modular solution provides affordable and reliable odour and infection control, making it the perfect partner for a wide range of applications.

The Ambion 1100 is suitable for:

- Restaurants & Takeaways
- Refuse Storage Areas
- Washrooms
- Hotel Rooms
- Care Homes
- Public Waiting Areas

The Ambion 1100 disinfects the air by neutralising odours and removing pathogenic germs, bacteria and viruses to create fresher, cleaner air.

### Features and Benefits

- Low capital and running costs
- Simple installation and maintenance
- Aesthetic design
- Compact, lightweight and robust
- Quiet operation
- Environmentally friendly

### Product Specification | Ambion 1100

<b>Room Area</b>	Up to 100 m <sup>2</sup> per unit
<b>Operation</b>	Adjustable timer
<b>Power Consumption</b>	Up to 45 W
<b>Power Supply</b>	230V/ 1 ph / 50Hz
<b>Size HxDxL</b>	300x100x302 mm
<b>Weight</b>	4kg
<b>Construction</b>	Grade 304 stainless steel
<b>Mounting</b>	Wall mounted
